## About

---

Currently involved in open source development. Main organizations that i contribute:

- [EO](#).
- [EO-CQRS](#).

I also have my own open source projects, one of them is a Ruby library. It has reached 6,000 downloads.

I am highly interested in the development of R&D. I have experience in conducting research and publishing scientific papers. I also have experience in developing programming language, maven plugins, static analysis and quality control tools. I also have experience in teaching students in the discipline "Theory of Formal Languages".
