About

I have my own open source projects, one of them is a Ruby library. It has reached **9k+ downloads**. You can find it and other projects or contributions in my GitHub account. Also I'm contributing in different open source projects. I am highly interested in the development of R&D and OSS, have experience in conducting research and publishing scientific papers, also have experience in developing programming language, maven plugins, static analysis and quality control tools. I have experience in teaching students in the discipline *Theory of Formal Languages*. Also, member of jury KaiCode OSS festival.

Experience

Samokat.tech | Kotlin Backend Developer | 23.10.2023 - present.
